INTRODUCTION

South Carolina Criminal and Juvenile Justice Trends 2011 provides basic information about criminal and juvenile justice in South Carolina. This publication also provides simple statistical information about crime rates, arrests, the courts, inmates, probationers and parolees. It addresses issues of concern about crime and seeks to clarify misconceptions about the state's criminal justice system.

Most trend information in this booklet is based on data for calendar years 1975 - 2010 or the fiscal years 1975 – 2010, but all time frames are specifically noted. Fiscal years are abbreviated using FY followed by the last two digits of the year in which the fiscal year ended. The sum of percentages may not always equal 100 due to rounding. Copies of this report or information regarding this publication can be obtained by writing or sending electronic mail requests to the following:

OFFENSES

INDEX OFFENSES: There are seven index offenses: murder, rape, robbery, aggravated assault, breaking or entering, larceny, and motor vehicle theft. These are typically categorized as violent (murder, rape, robbery and aggravated assault) or property (breaking or entering, larceny and motor vehicle theft) and provide basic measures of crime.

CRIME RATE: The crime rate indicates the number of index crimes per 10,000 unit of population. The crime rate is a measure of criminal activity that allows for meaningful comparisons over time and among areas of differing population sizes. Unless otherwise noted, any rates presented in this report were calculated per 10,000 population.

The formula for calculating crime rates is as follows:

$$\text{Crime Rate} = \frac{\text{Number of Crimes}}{\text{Population}} \times 10,000$$

Crime and arrest rates are determined using data as published or provided by SLED and population estimates provided by the Budget and Control Board, Office of Research and Statistics (ORS). The SLED publication, *Crime in South Carolina*, as well as other useful information, can be accessed at the SLED website listed below:

<http://www.sled.sc.gov/>

South Carolina's violent crime rate decreased 9.8% from 2009 to 2010. Since 1975 the violent crime rate has increased 19.5%.

VIOLENT CRIME: Violent crime consists of murder, rape, robbery and aggravated assault, and involves the element of personal confrontation between the victim and offender.

State and National Violent Crime Rates

South Carolina's murder rate decreased 17.4% from 2009 to 2010. The state murder rate decreased 61.7% from 1975 through 2010.

MURDER: Murder is the willful killing of one person by another. The classification of this offense is based on police investigation as opposed to the determination of a court, medical examiner, coroner, jury or other judicial body. Deaths caused by negligence, suicide, accident or justifiable homicides are not included.

State and National Breaking or Entering Rates

South Carolina's larceny rate decreased less than 1% from 2009 to 2010, but has increased 25.3% since 1975.

LARCENY: Larceny is the unlawful taking of property from the possession of another. It includes shoplifting, pocket-picking, purse snatching, thefts from motor vehicles, thefts of motor vehicle parts, and accessories without force, violence or fraud. It does not include embezzlement, con games, forgery, bad checks or motor vehicle theft.

ARRESTS

Arrest data provide a measure of law enforcement's response to crime. Arrest practices, policies, and enforcement emphases vary from place to place and even within a community over time. The arrest practices for certain unlawful conduct such as drunkenness, disorderly conduct, vagrancy, and related violations may differ among agencies. But the practices for robbery, burglary, and other serious crime arrests are more likely to be uniform and consistent throughout all jurisdictions. Uniform Crime Reporting procedures require that an arrest be counted on each separate occasion a person is taken into custody, notified, or cited. Annual arrest figures do not measure the number of individuals arrested, since one person may be arrested several times during the year for the same or different offenses. Arrest data are available from 1976 forward, with the exception of 2001; no arrest data are available for that year.

The formula for calculating arrest rates is as follows:

$$\text{Arrest Rate} = \frac{\text{Number of Arrests}}{\text{Population}} \times 10,000$$

Unless noted otherwise, all arrest rates are expressed per 10,000 unit of population.

South Carolina's violent crime arrest rate decreased 14.9% from 2009 to 2010. From 1976 through 2010, the violent crime arrest rate has decreased 4%.

VIOLENT CRIME: Violent crime consists of murder, rape, robbery and aggravated assault, and involves the element of personal confrontation between the victim and offender.

JUDICIARY

The judicial system of South Carolina consists of several different levels of courts. These courts include the Supreme Court, the Court of Appeals, the circuit courts (both General Sessions and Common Pleas), the family courts, the magisterial courts, the municipal courts, the probate courts, and the master-in-equity courts. The prosecutorial system consists of the circuit solicitors and the Office of the Attorney General. The defense component includes public defenders, court appointed counsel, retained counsel, and the Office of Appellate Defense. Court data presented in the following pages represent activity on the part of the General Sessions, magisterial and municipal courts.

More information concerning the South Carolina Judicial Department (SCJD), including statistical reports, is available on the Judicial Department's web site at:

<http://www.sccourts.org/>

The number of cases pending in South Carolina's Court of General Sessions decreased less than 1% from FY 09 to FY 10.

JAILS

The jail system in South Carolina provides an important example of intergovernmental cooperation. Although jails are the administrative and financial responsibility of local governments, both county and municipal, the South Carolina Department of Corrections (SCDC) is responsible for ensuring that local jails and detention centers meet certain operational standards. Jails must meet these standards to be certified for operation. Jails and detention centers are an important segment of the criminal justice system. Jails are used to detain prisoners before trial, and to provide a place where some inmates may serve their sentences. Data concerning jail capacity and use were provided by the SCDC Division of Compliance, Standards and Inspections.

South Carolina's jail capacity increased 216.6% from 1985 to 2009. From 2008 to 2009, the state's jail capacity increased 3.7%.

JAIL CAPACITY

Year	Capacity	Annual Change

South Carolina Juvenile Detention Capacity

CORRECTIONS

The South Carolina Department of Corrections (SCDC) is a cabinet agency, headed by a director reporting directly to, and serving at the pleasure of, the Governor. The director administers policy and is responsible for the operation of a modern, statewide penal system. The department is responsible for the incarceration of offenders sentenced to 91 days or more in a safe, secure and humane setting in order to protect public safety. The department also provides offenders with opportunities to become productive, law abiding citizens.

Additional information concerning SCDC, including statistical information, is available on the department's web site at:

<http://www.doc.state.gov/>

South Carolina ranked tenth among the states, incarcerating 512 inmates per 100,000 residents. The national incarceration rate was 502 inmates per 100,000 inhabitants.

**STATES WITH THE TEN HIGHEST
INCARCERATION RATES
2010**

State	Prison Inmates per 100,000 Inhabitants
Louisiana	881
Mississippi	712
Oklahoma	657
Alabama	650
Texas	648
Arizona	580
Florida	559
Georgia	526
Arkansas	522
South Carolina	512

Note: Incarceration rates include only inmates with a sentence of 1 year or more. SCDC houses prisoners with sentences of more than 90 days, but SCDC inmates with sentences of less than 1 year are not included in this table.

South Carolina Inmates by Sentence Length

Of the inmates released from South Carolina's prisons in FY 07, 33.5% returned within three years.

INMATE RECIDIVISM

Fiscal Year Released	Number of Inmates Released	Inmates Returned in Three Years
1995	10,911	32.3%
1996	9,092	32.3%
1997	10,547	30.2%
1998	10,927	28.0%
1999	10,969	27.6%
2000	11,165	29.3%
2001	11,673	32.0%
2002	12,204	32.2%
2003	12,538	32.7%
2004	13,489	33.0%
2005	13,565	33.9%
2006	13,716	33.6%
2007	13,499	33.5%

Notes: Recidivism is defined as an inmate returning to SCDC within three years of release. As a result, there is a three year lag in determining recidivism. It is important to note that this definition does not include inmates released from SCDC who are subsequently incarcerated in a local jail, the penal system of another state or the federal penal system.

COMMUNITY CORRECTIONS

The South Carolina Board of Paroles and Pardons consists of seven members, appointed by the Governor and confirmed by the Senate. This board is responsible for granting paroles and pardons. The South Carolina Department of Probation, Parole and Pardon Services (SCDPPPS) is a cabinet agency, with the director reporting to, and serving at the pleasure of, the Governor.

SCDPPPS is responsible for providing adult community corrections supervision throughout the state. This includes the supervision of those offenders sentenced to probation by the court, paroled by the board or placed on early release programs. SCDPPPS also works closely with the Board of Paroles and Pardons to provide information required for its consideration in granting paroles and pardons.

Additional information concerning SCDPPPS, including statistical information, can be found at the departmental website listed below:

<http://www.dppps.sc.gov/>

Note: From 1941 through Fiscal Year 82, SCDPPPS was known as the South Carolina Department of Probation, Parole and Pardons. From Fiscal Year 83 through Fiscal Year 85, the agency was known as the South Carolina Department of Parole and Community Corrections. The current name has been in use since FY 86. In the interest of both brevity and thoroughness, source notes referring to data taken from annual reports for those years will reference only SCDPPPS for the corresponding years. Full reference, with appropriate citation for all years, can be found under Sources.

South Carolina ranked 39th among the states with 110.7 offenders under community corrections supervision per 10,000 residents. The national community correctional supervision rate was 207.4 per 10,000 residents.

**STATES WITH THE TEN HIGHEST
COMMUNITY CORRECTIONS SUPERVISION
RATES
2010**

State	Community Corrections Population per 10,000 Adults
Georgia	654.9
Idaho	495.1
Rhode Island	307.4
Ohio	297.8
Minnesota	290.4
Indiana	286.1
Texas	283.9
Pennsylvania	277.4
Michigan	270.9
Delaware	245.0

Notes: Calculated on the basis of the community corrections supervision population on December 31, 2010 and the estimated adult (18 years and older) population on January 1, 2011. It is important to note that the age of adult criminal responsibility in South Carolina is 17 years, therefore the BJS rate of 110.7 offenders per 10,000 adults is an overestimate.

South Carolina Probation Admissions by Age

In FY 10, 4,915 probationers failed while under supervision in the community, representing a 12.2% failure rate.

COMPREHENSIVE PROBATION FAILURES

Fiscal Year	Failures	Percent
1997	4,168	8.8%
1998	4,871	10.3%
1999	4,736	10.1%
2000	5,258	11.1%
2001	4,773	10.4%
2002	4,831	10.9%
2003	5,337	11.9%
2004	5,419	12.5%
2005	5,055	12.2%
2006	5,251	12.7%
2007	4,899	12.1%
2008	4,993	12.0%
2009	5,182	12.3%
2010	4,915	12.2%

Notes: Comprehensive failure is calculated as a percentage of all probationers closed during the fiscal year plus all probationers active at the end of the fiscal year. Failure consists of the following case closure reasons: expired in institution, judicial closure institution, revoked for new offense, revoked for compliance violations and revoked for compliance with charges pending. Failures do not necessarily result in incarceration.

Source: Unpublished data, SCDPPPS.

South Carolina
Comprehensive Probation Failures

In FY 10, 560 inmates were approved for release under parole supervision, representing 13.4% of those heard by the parole board.

PAROLE HEARINGS

Notes: Parole approvals are not equal to parole admissions for two reasons. Inmates may be approved for parole on the basis of conditions which, if not met, will result in their not being released to parole supervision, and parole admissions include inmates supervised under early release programs that do not require approval by the parole board.

Source: Unpublished data, SCDPPPS.

**South Carolina Parole Admissions by
Offense**

In FY 01, 28.3% of parole admissions were 40 years of age or older. In FY 10, 33.8% of parole admissions were 40 years of age or older.

2009	145	6.1%
2010	102	4.8%

Notes: Comprehensive failure is calculated as a percentage of all parolees closed during the fiscal year plus all parolees active at the end of the fiscal year. Failure consists of the following case closure reasons: expired in institution, judicial closure institution, revoked for new offense, revoked for compliance violations and revoked for compliance with charges pending. Failures do not necessarily result in incarceration.

JUVENILE ARRESTS

Besides being a gauge of law enforcement's response to crime, arrests provide reliable data concerning the age of apprehended offenders. Consequently, arrest rates by age provide one of the best available measures of juvenile delinquency. Uniform Crime Reporting procedures require that an arrest be counted on each separate occasion a person is taken into custody, notified, or cited. As a result, annual arrest figures do not measure the number of individual juveniles arrested, since one juvenile might be arrested several times during a year. In keeping with state law which sets the age of adult responsibility in most criminal matters at seventeen years of age, arrest rates were calculated on the basis of the juvenile (ages 16 and younger) population for each year in question. As noted earlier, arrest data are available from 1976 forward with the exception of 2001. Consequently, there is a gap at that point on each data graph.

The formula for calculating juvenile arrest rates is as follows:

$$\text{Arrest Rate} = \frac{\text{Number of Juvenile Arrests} \times 10,000}{\text{Juvenile Population}}$$

Unless otherwise noted, all juvenile arrest rates are expressed per 10,000 juveniles (ages 16 and younger).

South Carolina's juvenile arrest rate for violent crimes decreased 20.8% from 2009 to 2010. The juvenile arrest rate for violent crimes has increased 56.8% since 1976.

VIOLENT CRIME: Violent crime consists of murder, rape, robbery and aggravated assault, and involves the element of personal confrontation between the victim and offender.

South Carolina Juvenile Arrest Rate for Violent Crime

Fourteen juveniles were arrested for murder in 2010. In 2009 six juveniles were arrested for murder.

MURDER: Murder is the willful killing of one person by another. The classification of this offense is based on police investigation as opposed to the determination of a court, medical examiner, coroner, jury or other judicial body. Deaths caused by negligence, suicide, accident or justifiable homicides are not included.

RESPONSES TO JUVENILE CRIME

The South Carolina Department of Juvenile Justice (DJJ) serves as the state's designated juvenile justice agency. The Family Court is the arm of the state's judicial system that disposes of most juvenile cases. DJJ supports the Family Court system by providing intake services, diversion programs, probation and aftercare supervision. DJJ operates the reception and evaluation (R&E) centers as well as all the state's long term correctional facilities. The R&E centers temporarily hold juveniles committed by the Family Court between the adjudicatory and dispositional hearings for comprehensive diagnostic testing and treatment recommendations. DJJ also operates programs designed to serve as non-institutional alternatives.

Additional information about juvenile delinquency and related concerns, including but not limited to statistical reports, can be found at the DJJ website at:

<http://www.state.sc.us/djj/>

Disturbing schools was the most frequently reported offense among juvenile cases referred to solicitors in FY 10.

**TEN MOST FREQUENT OFFENSES FOR
JUVENILE REFFERALS

Admissions to DJJ Institutions

CRIMINAL JUSTICE FISCAL DATA

This section provides information concerning state appropriations and employment for the administration of justice in South Carolina. It is important to note that a variety of agencies have as part of their mission, criminal justice related functions, and that parts of the mission of some criminal justice agencies might be considered to be outside the realm of criminal justice. County and municipal governments in South Carolina also operate criminal justice agencies, unfortunately employment and expenditure data related to those efforts are not readily available. Federal criminal justice agencies operate in South Carolina, and provide federal funding to state and local units of government for fighting crime and administering justice. This publication does not attempt to capture and define all fiscal data related to every criminal justice function, but rather attempts to provide a broad overview of criminal justice revenue and employment by presenting financial and employment data relating to state agencies that are primarily involved in administering justice and enforcing the law. The most recent data available for state appropriations and employment are for FY 12. It is important to be aware that these data do not reflect budget cuts or other adjustments that occur during the course of the fiscal year.

The Department of Corrections had the largest appropriation among the state's criminal justice agencies for FY 12.

**STATE CRIMINAL JUSTICE APPROPRIATIONS
FY 12**

Agency	Appropriations
Corrections	\$414
Judicial Dept.	\$63
Juvenile Justice	\$113
Law Enforcement Training Council	\$15
Natural Resources (LE)	\$23
Probation, Parole & Pardon Services	\$52
Public Safety	\$151
SLED	\$64

Notes: Appropriations (total funds) represent millions of dollars, rounded to the nearest million. The Department of Natural Resources amount only includes appropriations for law enforcement. It is important to note that appropriations do not take into account budget cuts or other adjustments that occur during the fiscal year.

Source: 2011 Appropriations Act.

**State Criminal Justice Agency
Appropriations
FY 12**

Appropriations for state criminal justice agencies increased 4.9% from FY 11 to FY 12.

STATE CRIMINAL JUSTICE APPROPRIATIONS

Fiscal Year	Appropriation	Annual Change
1994	\$474,547,128	
1995	\$520,919,842	+9.8%
1996	\$550,791,920	+5.7%
1997	\$638,229,999	+15.9%
1998	\$679,189,844	+6.4%
1999	\$716,322,483	+5.5%
2000	\$729,442,252	+1.8%
2001	\$816,744,939	+12.0%
2002	\$749,692,597	-8.2%
2003	\$733,792,784	-2.1%
2004	\$718,275,084	-2.1%
2005	\$713,799,143	-0.6%
2006	\$761,899,976	+6.7%
2007	\$871,921,292	+14.4%
2008	\$893,663,816	+2.5%
2009	\$922,398,665	+3.2%
2010	\$848,766,154	-8.0%
2011	\$854,183,865	+0.6%
2012	\$895,711,347	+4.9%

Notes: This includes appropriations (total funds) for the Department of Corrections, the Department of Public Safety, the Department of Juvenile Justice, the Department of Probation, Parole & Pardon Services, SLED, the Judicial Department, the Law Enforcement Training Council and the law enforcement appropriations for the Department of Natural Resources. Appropriations for the Department of Motor Vehicles were subtracted from Department of Public Safety totals for the years when those agencies were combined to more accurately reflect current organizational structure. It is important to note that appropriations do not take into account budget cuts or other adjustments that occur during the fiscal year.

Sources: Appropriations Acts, 1993 through 2011.

State Criminal Justice Agency Appropriations

The Department of Corrections had the largest authorized work force among criminal justice agencies for FY 12 with 6,226 positions.

**STATE CRIMINAL JUSTICE EMPLOYMENT
FY 12**

Agency	Positions
Corrections	6,226
Judicial Dept.	585
Juvenile Justice	1,497
Law Enforcement Training Council	124
Natural Resources (LE)	256
Probation, Parole & Pardon Services	768
Public Safety	1,463
SLED	520
Total	11,439

Notes: Full time equivalent positions are rounded to the nearest whole number. The Department of Natural Resources' positions include only law enforcement positions. It is important to note that all authorized positions are not necessarily filled and that any mid-year reductions are not show here.

Source: 2011 Appropriations Act.

State Agency Criminal Justice Employment FY 12

From FY 94 to FY 12, the number of authorized positions for state criminal justice agencies increased 3.8%. From FY 11 to FY 12 the number of positions decreased 9.4%.

STATE CRIMINAL JUSTICE EMPLOYMENT

Fiscal Year	Positions	Annual Change
1994	11,018	
1995	11,594	+5.2%
1996	12,013	+3.6%
1997	12,795	+6.5%
1998	13,267	+3.7%
1999	13,369	+0.8%
2000	13,555	+1.4%
2001	13,697	+1.0%
2002	13,667	-0.2%
2003	13,601	-0.5%
2004	13,598	<-0.1%
2005	13,517	-0.6%
2006	11,837	-12.4%
2007	12,009	+1.5%
2008	12,300	+2.4%
2009	12,349	+0.4%
2010	12,298	-0.4%
2011	12,629	+2.7%
2012	11,439	-9.4%

Notes: This includes authorized positions for the Department of Corrections, the Department of Public Safety, the Department of Juvenile Justice, the Department of Probation, Parole & Pardon Services, SLED, the Judicial Department, the Law Enforcement Training Council and law enforcement positions within the Department of Natural Resources. Positions for the Department of Motor Vehicles were subtracted from Department of Public Safety totals for the years when those agencies were combined to more accurately reflect current organizational structure. As previously noted, not all authorized positions are necessarily filled.
